

Know The Real Facts Don't Be Fooled By The False Stats!

Read about the side effects and scary facts of the first-time-ever vaccine that's being experimentally tested on human beings. These side effects have already proven to include: deaths, facial paralysis, heart inflammation, severe muscle pain, life threatening allergic reactions, blood clotting and more. Below are many headlines (mostly from the mainstream media) of different situations which prove that the vaccine is definitely not a good idea to combat a 'virus' that has a + - 97% recovery rate even when taking the false stats into account.

Eighty-four headlines that should be read before taking the vaccine.
