“VACCINE DEATHS ARE BEING SURPRESSED” – DR. HERMAN EDLING

***“PLEASE PROVIDE SOUTH AFRICANS – CITIZENS,
DOCTORS, SCIENTISTS, EVERYBODY – WITH THE
TRUTH, AND STOP SUPPRESSING PEOPLE WHO TRY
TO TELL THE TRUTH”***

‘Vaccine deaths are being hidden, suppressed and falsely recorded’ – Dr Herman Edeling

15th September 2021 by Nadya Swart

In August, Dr Herman Edeling wrote an open letter to President Cyril Ramaphosa and the Minister of Health in which he addressed the health and economic crises that we are facing as a result of the Covid-19 pandemic. As a neurosurgeon specialising in medico-legal practice, Dr Edeling is particularly qualified to comment on issues and concerns in respect of the Covid-19 vaccines as well as the arbitrary and parochial manner in which the South African government and health authorities have addressed the pandemic.

Drawing on his expertise in medico-legal practice, Dr Edeling states that;
‘ In this global catastrophe, we have people expressing opinions and

instructions – relying on their authority to do so, but not relying on reasons. And by not relying on reasons, they are neither relying on facts, nor on science, nor on logic. That is the philosophical crisis that we are in.’ In a fascinating and acutely informative interview with Dr Edeling, elements of the official Covid-19 narrative were discussed – a global narrative put forth by, amongst other institutions, the World Health Organisation and the US’ Centers for Disease Control and Prevention, which he believes ‘the South African government has slavishly followed without, it seems, any questioning.’

Of particular interest were Dr Edeling’s insights into the fundamental flaw of mass vaccination during a pandemic and those deaths which occur during the period of immune suppression which follows vaccination – deaths, he says, which are medically vaccine deaths and must be recorded as such. The central core of the open letter is to say to the President; ‘please provide South Africans – citizens, doctors, scientists, everybody – with the truth and allow people to discuss the truth and debate’, and ‘also to stop suppressing people who try to tell the truth – but who are suppressed or censored.’

Less than 24 hours after the interview was live streamed on YouTube, it was removed on the grounds of ‘medical misinformation’ and as a consequence, BizNews has been prohibited from uploading any content on YouTube for one week. A video of the interview can now be viewed on Vimeo. For ease of access, documents discussed in the interview have been embedded below the article. – Nadya Swart
